3. The Russian military unit [redacted] represented by Major Morozov (fnu) \*\*, placed an order with the RFT plant in Erfurt (sic) for the development of cable testing equipment. According to the 1951 production plan, the manufacture of 50 such sets is to be started at Erfurt in September 1951. The SCC wants to increase production of these cable testers to 300 units. The sale of these sets to satellite states is prohibited.

4. The following is a copy of a letter sent by the Central Laboratory for Signal and Special Installations (Zentrallaboratorium für Signal- und Sonderanlagen) (ZSS), Köpenick, to the Russian Construction Control Agency in Berlin-Ober-schöneweide concerning the construction of an electromagnetic radar ranging apparatus. (The terms in brackets have been added within the Agency.) In February 1951, the SCC informed the VVB RFT that the bid mentioned in the letter had been accepted in principle, but that the delivery schedule would have to be accelerated. Every support, including the assignment of experienced technical personnel from the USSR \*\*\*, was promised to help the VVB RFT fulfill this order.

25X1

\* [redacted] Comment: Makaveyev, an expert in potentiometer switching devices, was previously attached to the Russian Control Commission located at the Zeiss plant in Jena.

25X1

\*\* [redacted] Comment: Major Morozov might be identical with Y.Y. Morozov who was awarded a 1950 Stalin prize for his successful work in the radio field.

25X1

\*\*\* [redacted] Comment: This may refer to German radar specialists who have since returned from the USSR.
